

EMAN AL_BQOUR

ARCHITECTURE STUDENT

Address: Al-salt, Jordan Phone: 0782499950

Email: emanalbqour@gmail.com

SUMMARY

Final-year Architecture student (GPA 3.3/4.00) with advanced academic training in architectural design development, BIM-based documentation, and sustainable environmental systems. Experienced in managing full studio projects from urban analysis and program development to detailed execution drawings and high-quality visualization. Demonstrates strong spatial reasoning, façade articulation skills, and technical coordination within complex architectural projects. Seeking international professional exposure through IAESTE to contribute within multidisciplinary design environments.

EDUCATION

University of Jordan

September, 2021 – Present

- **Bachelor's Degree in Architecture**
 - **GPA** : 3.3/4.00 Very good
 - **Expected Graduation**: Aug / 2026
 - **Relevant Coursework**: Architectural Design Studios I – VII, Urban Design, Sustainable Architecture, Environmental Systems, Building Construction, Structural Systems, Landscape Architecture, Interior Architecture.
 - **Graduation Project**: National Center for Future Technology: An institutional innovation center exploring advanced architectural expression, sustainable systems, and comprehensive technical development.
-

TECHNICAL SKILLS

- **Design & Modeling Software**
Revit (BIM Modeling & Documentation), AutoCAD, SketchUp, Rhinoceros
- **Rendering & Visualization**
Lumion, D5, Enscape, Adobe Photoshop, Adobe Illustrator
- **Technical & Analytical**
Construction Documentation, Structural Coordination, Sustainable Design Principles, Passive Design Strategies, Material Selection & Specifications, Site Analysis, Urban Context Research
- **Additional Skills**
3D Modeling, Concept Development, Presentation Boards Design, Physical Model Making

SELECTED ACADEMIC PROJECTS

- **Integrated Residential District – Amman**

Comprehensive masterplan for a new residential district on the outskirts of Amman, integrating land-use strategy, circulation networks, and community-oriented public spaces. Emphasis on walkability, environmental responsiveness, and sustainable urban growth.

- **Iraq Al-Amir Village Revitalization**

Urban regeneration proposal enhancing the touristic and residential potential of Iraq Al-Amir through heritage-sensitive interventions, mixed-use public spaces, and context-driven development strategies.

- **Center of Excellence – University of Jordan**

Institutional academic facility designed to support research and innovation, developed through concept-driven spatial organization, environmental integration, and coordinated architectural documentation.

- **Heritage Boutique Hotel – Iraq Al-Amir**

Adaptive reuse project transforming traditional village houses into a heritage hotel, balancing conservation principles with contemporary hospitality functions and material authenticity.

PROFESSIONAL EXPERIENCE

Architectural Intern: Seen Architecture – Amman, Jordan (two months)

Residential Luxury Villa Project

- Contributed to the design development of a high-end residential villa from concept refinement to technical detailing.
- Produced architectural drawings (plans, sections, elevations) using AutoCAD and Revit under senior supervision.
- Developed 3D models using Rhinoceros and prepared rendered visualizations for client presentations.
- Participated in client meetings, supporting design discussions and material selection decisions.
- Assisted in façade articulation, spatial planning, and coordination of architectural details.

PROFESSIONAL DEVELOPMENT & WORKSHOPS

- Train the Trainer – Training Delivery & Session Management
- Communication & Leadership Skills
- Emotional Intelligence in Professional Environments

LANGUAGES

- Arabic – Native
- English – Professional Working Proficiency (B2 CEFR Level)
